Presentación

A la distancia de seis años desde la publicación del primer volumen de los Índices de Archivo Agustiniiano, presentamos ahora el vol. II, que registra los nombres de personas, conventos y provincias contenidos en los volúmenes XXIX-LIII/2, correspondientes a los años 1928-1959 de la dicha revista. El vol. LIII tiene una doble paginación, por lo cual hemos indicado las páginas de la primera parte como LIII/1 y las de la segunda como LIII/2.

El método utilizado ha sido el mismo y la amplitud de la materia recogida semejante. Quien desee indicaciones más explícitas deberá repasar la Presentación que se hizo al frente del primer volumen para saber los criterios concretos a los que se han atendido también esta vez los editores.

Los testimonios recogidos hasta ahora acerca de la utilidad de este instrumento de trabajo por parte de algunos de los estudiosos que los han utilizado (especialmente con ocasión de investigaciones realizadas en coincidencia con el V Centenario del descubrimiento y evangelización de América), nos han animado a no dejar en olvido y sin terminar una obra para la que, en el momento de la edición del primer volumen, estaban ya recogidos los nombres de los primeros diez tomos que habían de ofrecer la materia del presente volumen.

Nosotros nos hemos detenido en el año 1959 (vol. LIII/2) porque a partir de él cada volumen dispone ya de índice propio. Por otra parte el período contemplado en este segundo volumen, tal y como estaba proyectado, equivalía aproximadamente al contenido del primero. Y, aunque el proseguir recogiendo en un tercer volumen los nombres registrados a partir de 1960 pudiera ser útil, haciendo uso de los índices que ya existen y unificándolos, la tarea no es urgente, porque el investigador lo puede hacer por cuenta propia aunque con mayor fatiga.

En la persuasión de que con la edición de este segundo volumen prestamos un servicio a la historia agustiniana y a la cultura en general, haciendo más accesible el rico material que contienen estos 25 volúmenes de la revista, lo damos a la luz pública.
